

## The ETHIC Office

The ETHIC Office, is a small structure composed by specialized technical staff, that is now officially open and completely available to support the enterprises in several areas, such as:

- Understanding their needs in different levels: contacts with support financial founding's; protocols of cooperation with institutions of research and education; improvement of processes and methods; among others;
- Potential certification and/or implementation of a good practices process (Social Responsibility and Ethics);
- Developing the contents and dissemination material of the activities/products/services of the enterprises (Eg. Translations; changing of the enterprises' image; new ideas);
- Contacting with other national and international enterprises attempting to promote and establish new partnerships.
